

CARE INSTRUCTIONS

Your new piece of furniture has been recently hand painted and detailed and will last many years if handled with care. Normal signs of wear and tear as well as imperfections add to the unique character of your piece.

Refinished pieces take 20-30 days to cure. During the curing process, please use carefully and avoid excessive handling.

- Clean with water and/or mild soap and soft cloth.
- Avoid harsh chemicals, abrasive products, furniture polishes, sprays, alcohol or acidic liquids. Always wipe up moisture promptly.
- Avoid direct contact with candle wax as it may stain your finish.
- Use coasters, trivets, felt pads and placemats to avoid scratches from objects.
- Limit exposure to extreme heat or cold and maintain consistent humidity levels.
- Avoid excessive moisture or dryness and contact with sharp objects that may scratch the surface.
